SUMMARY

Data Analyst & Developer with hands-on experience in **Frappe/ERPNext development, API integration, and machine learning**. Skilled in Python, SQL, and Business Intelligence tools with expertise in building scalable backend systems, automating workflows, and analyzing data to drive business insights.

EXPERIENCE

Developer Trainee - Leapsys Software and Consulting Pvt. Ltd. | Jan 2026 - *Present*

- Developed and customized **Frappe/ERPNext modules**, streamlining business workflows and improving operational efficiency.
- Built scalable backend solutions using **Python (Frappe) and REST APIs** for seamless system integration.
- Designed and deployed custom workflows for **invoice processing, reducing manual effort and errors**.
- Integrated third-party systems (Gstrobo, GST APIs) using **secure authentication and JSON-based communication**
- Debugged and optimized ERP processes, enhancing **system performance and reliability**.

AI Data Quality Analyst Trainee - Orbique Technology | Sep 2025 - Jan 2026

- Ensured data accuracy and validation for large-scale AI datasets
- Wrote advanced SQL queries for data integrity checks
- Performed analysis using Python (Pandas, Matplotlib)

Data Analytics Intern - Infotact Solutions (Devsindia) | Feb 2025 - May 2025

- Conducted data preprocessing, EDA, and ML modeling
- Built models and delivered insights for business problems

PROJECTS

1. Book Recommendation System ([Link](#))

- Implemented a robust, scalable, and intelligent KNN-based recommendation engine using pivot tables and model serialization, deployed a clean, interactive, and user-friendly Streamlit UI for instant similar-book suggestions.

2. Multiple Disease Prediction Web App ([Link](#))

- Developed and deployed a highly interactive and reliable Streamlit-based web application using ML models (Logistic Regression, Random Forest) to predict Diabetes, Heart Disease, and Chronic Kidney Disease with accurate and real-time outputs.

3. Superstore Sales Analysis Dashboard ([Link](#))

- Designed and published an interactive, visually appealing Power BI dashboard leveraging advanced DAX formulas and Excel analytics for sales and profit insights.
- Delivered valuable, business-focused insights into regional performance and customer behavior trends.

SKILLS

- Programming & Query:** Python, Advanced SQL , **Frappe Framework, ERPNext**
- ML & Data Analysis:** AI Data Quality, Data Cleaning, EDA, Preprocessing, Statistical Analysis, Supervised/Unsupervised Learning, Model Evaluation, Time Series Forecasting, NLP
- Libraries/Frameworks:** NumPy, Pandas, Matplotlib, Scikit-learn, Streamlit, Angular, PrimeNG
- BI & Tools:** Power BI, Tableau, Microsoft Excel (Advanced), Data Modeling, Dashboards, Data Visualization

CERTIFICATIONS

- Data Analysis Essentials - Cisco Networking Academy ([Certificate](#))
- Advanced SQL for Beginner to Advanced (SQL Bootcamp) – Udemy ([Certificate](#))

EDUCATIONS

- B.Tech in Computer Science Engineering**
J.C. Bose University of Science & Technology, YMCA, Faridabad | 2021 – July 2025
